SUMMARY

Creative and passionate UI/UX Designer with a strong background in front-end development and a focus on user-centered design principles. Seeking to bring a diverse skill set to a dynamic team at YuJa, where I can collaborate to create intuitive, cross-platform digital experiences.

TECHNICAL SKILLS

- Design Tools: Figma, Adobe Creative Suite (Photoshop, Illustrator), Sketch
- Prototyping & Wireframing: Creating wireframes, user flows, and high-fidelity prototypes
- UX Research: Conducting user interviews, usability testing, and applying UX best practices
- Web Development: HTML5, CSS3, JavaScript, React, and responsive design
- Cross-Platform Design: Designing for iOS, Android, and web applications
- Accessibility Standards: Knowledge of WCAG 2.0/2.1 and AODA compliance
- Collaboration & Communication: Strong interpersonal skills for working with cross-functional teams
- Project Management: Managing workload, meeting deadlines, and handling multiple projects simultaneously

EXPERIENCE

UI/UX Designer   **August 2020 – September 2023**
Itechgrow   Gujarat, India

- User-Centered Design: Conducted user research and usability testing to gain insights and iteratively improve design solutions. Used data-driven design strategies to enhance user satisfaction and streamline interactions for key projects.
- Wireframing & Prototyping: Created low- and high-fidelity wireframes and interactive prototypes using Figma and Adobe XD. Collaborated with product managers and stakeholders to translate business requirements into user flows and UI designs.
- Cross-Platform Design: Developed consistent visual language and UX patterns for mobile (iOS & Android) and desktop applications. Ensured pixel-perfect execution by partnering with the development team to create design guides and visual specs.
- Responsive Web Design: Translated design concepts into fully functional, responsive web interfaces using HTML5, CSS3, and JavaScript. Worked closely with the engineering team to ensure seamless handoff and proper implementation of design elements.
- Designed and implemented a design system that streamlined the UI development process and ensured consistency across the company's web and mobile products.
- Created wireframes and interactive prototypes for a cross-platform app, which significantly improved the overall user experience and engagement.
- Accessibility & Usability: Integrated WCAG 2.0/2.1 accessibility standards into designs to improve inclusivity and usability for a broader audience.
- Interactive Prototypes: Built interactive prototypes to validate design concepts, testing usability across different devices and platforms. Gathered user feedback to refine designs and optimize the user experience.

Freelance UI/UX Designer   **January 2020 – Present**
Self-Employed - JTDESIGNS49   Gujarat, India

- Worked with diverse clients to create user-centered designs for websites and mobile applications, focusing on delivering visually compelling and highly functional interfaces.
- Conducted end-to-end design processes, including user research, wireframing, prototyping, and final UI design.
- Collaborated with developers to ensure seamless integration of design components and functionality.

EDUCATION

Mobile Application Development, ON, Canada   **Sept 2021 — Dec 2022**

Bachelor's in Computer Engineering, India   **Sept 2016 — Aug 2020**
